NEWS RELEASE

FOR IMMEDIATE RELEASE

**U.S. DEFENSE INFORMATION SYSTEMS AGENCY (DISA) AWARDS
MARSHALL COMMUNICATIONS CORPORATION
DIGITAL VIDEO BROADCAST RETURN CHANNEL VIA SATELLITE (DVB-RCS)
HUB MAINTENANCE CONTRACTS**

ASHBURN, VA. – February 2010 – Marshall Communications Corporation (MARSHALL) announces that the Defense Information Systems Agency (DISA) of the United States Department of Defense (DOD) has awarded MARSHALL two (2) contracts for maintenance and support on the DVB-RCS Hub located in Landstuhl, Germany and the Hub located at DISA's Skyline, Falls Church facility. In 2006, MARSHALL lead the effort in the systems integration and engineering in providing, at the time, the unique, first-of-its-kind DVB-RCS system at the DOD Teleport in Landstuhl, for USCENTCOM – currently supporting operations in Iraq and Afghanistan.

MARSHALL is a leader in the DVB-RCS/S2 arena, and will continue to pursue the opportunity to provide open-standard, broadband solutions to DOD. MARSHALL currently provides continual operations and maintenance to DVB-RCS/S2 terminals deployed within the South West Asia Theatre. The fly-away DVB-RCS equipment is providing the interactive, secured, two-way services for the Full Motion Video (FMV) for Unmanned Aerial Vehicle (UAV) video dissemination.

ABOUT MARSHALL

Headquartered in Ashburn, VA, Marshall Communications Corporation is a small disadvantaged (SDB certified), Veteran-Owned Small Business (VOSB), and was established in 1991. MARSHALL has been providing high quality satellite communications and multimedia networking solutions including full turnkey systems engineering and integration using COTS technology to DOD and non-DOD Agencies for over 19 years. MARSHALL was awarded a Schedule 70 (Contract # GS-35F-0195S) by the GSA Federal Supply Service (FSS) in February 2006; a Seaport-e (Contract # N00178-07-D-5143) by the U.S. Navy Department in June 2007; and an Indefinite Delivery/Indefinite Quantity (IDIQ) (Contract # N65236-08-D-5159) by the Space and Naval Warfare Systems Command in 2008. MARSHALL's team has over 100 years of satellite communications network operations, planning, and systems engineering experience - inclusive of Cisco Certified Engineers. The Company specializes in "Best of Breed" in standards-based, open architecture systems and delivering satellite-based IP network solutions that are cost effective and promote quality of service and reliability.
