

MARSHALL COMMUNICATIONS CORP.
20098 Ashbrook Place, Suite 260, Ashburn, Virginia 20147

NEWS RELEASE

FOR IMMEDIATE RELEASE

**SONNY MARSHALL, PRESIDENT & CEO,
MARSHALL COMMUNICATIONS CORPORATION
SPEAKS ON FULL MOTION VIDEO
AT THE 2010 NATIONAL ASSOCIATION OF BROADCASTERS**

ASHBURN, VA. – April 2010 – Sonny Marshall, President & CEO of Marshall Communications Corporation (MARSHALL), will be speaking at the National Association of Broadcasters (NAB) Military & Government Summit (“Trends in Mission Critical Video & Data”), scheduled to take place April 13-15, 2010 in the Las Vegas, NV. Mr. Marshall will be participating on a panel session on Tuesday, April 13th, entitled “Trends in Infrastructure: Commercial vs. Military.” The panel will focus on networking challenges based on the demands of a new infrastructure. Mr. Marshall’s discussion will be focused on the use of full motion video in today’s battlespace and the valuable role they play in the deployment of mission critical communications links to the mobile warfighter and networks that provide high speed net centric data and content fusion to the edge.

In addition to participating in the NAB conference, Mr. Marshall recently presented to a highly attended “Full-Motion Video Conference” on March 15, 2010 at the Sheraton National Hotel in Arlington, VA. His presentation covered the “Potential UAV FMV Dissemination Technology Improvements for U.S. Forces”. His presentation was well received by both Military/Government officials and Industry; and suggested a new approach to CONOPS for “Thinking Outside of the Box” for U.S. Forces to accommodate the efficient dissemination and fusion of UAV video.

Mr. Marshall also participated on a conference panel at the Satellite 2010 Conference on March 16, 2010 at the Gaylord Convention Center at the Washington National Harbor in Oxon Hill, MD. The panel discussion was entitled “Eyes in the Skies: UAVs, ISR, and Satellites.”

MARSHALL is a leader in the DVB-RCS/S2 arena, and will continue to pursue the opportunity to provide open-standard, broadband solutions to DOD. MARSHALL currently provides continual operations and maintenance to DVB-RCS/S2 terminals deployed within the South West Asia Theatre. The fly-away DVB-RCS equipment is providing the interactive, secured, two-way services for the Full Motion Video (FMV) for Unmanned Aerial Vehicle (UAV) video dissemination.

ABOUT MARSHALL

Headquartered in Ashburn, VA, Marshall Communications Corporation is a small disadvantaged (SDB certified), Veteran-Owned Small Business (VOSB), and was established in 1991.

MARSHALL has been providing high quality satellite communications and multimedia networking solutions including full turnkey systems engineering and integration using COTS technology to DOD and non-DOD Agencies for over 19 years. MARSHALL was awarded a Schedule 70 (Contract # GS-35F-0195S) by the GSA Federal Supply Service (FSS) in February 2006; a Seaport-e (Contract # N00178-07-D-5143) by the U.S. Navy Department in June 2007; and an Indefinite Delivery/Indefinite Quantity (IDIQ) (Contract # N65236-08-D-5159) by the Space and Naval Warfare Systems Command in 2008. MARSHALL's team has over 100 years of satellite communications network operations, planning, and systems engineering experience - inclusive of Cisco Certified Engineers. The Company specializes in "Best of Breed" in standards-based, open architecture systems and delivering satellite-based IP network solutions that are cost effective and promote quality of service and reliability.
