NEWS RELEASE

FOR IMMEDIATE RELEASE

**MARSHALL COMMUNICATIONS CORPORATION SHOWCASES
AT THE GSA FAS/ITS 2009 NETWORK SERVICES CONFERENCE
IN CHICAGO, IL, AUGUST 10-13**

ASHBURN, VA. – August 2009 – Marshall Communications Corporation (MARSHALL), will be participating in the General Services Administration (GSA), Federal Acquisition Service (FAS), Integrated Technology Services (ITS), Network Services Conference in Chicago, IL, August 10-13, 2009. MARSHALL will be exhibiting in booth # 510 and will be featuring its *SkyMarshal* Service. The *SkyMarshal* Service is a managed service for providing satellite, cellular, LAN/WAN network solutions for Distance Learning, Disaster Recovery, Continuity of Operations, and Digital Signage applications. MARSHALL provides end-to-end systems integration solutions for routine and mission-critical communications applications.

MARSHALL's President and Chief Executive Officer, Mr. Sonny Marshall, will be a panelist on the conference program on Tuesday, August 11th. Organized by the Satellite Industry Association (SIA), the Industry Panel is entitled "Commercial Satellite Services through GSA" and will feature other notable SIA industry members, who will help stage informative panel discussions. The session will include discussions on utilizing wireless solutions for creating a seamless infrastructure for communications systems and applications for supporting capabilities for Emergency Response/Disaster Recovery, COOP, and broadcasting to the desktop, distance learning, and IP datacasting.

MARSHALL is the only small business within the satellite industry that has been invited to become a member of SIA, and has been a member of SIA since 2005. The Company has been providing services/products to the U.S. Department of Defense (DOD) and to Civilian Agencies since 1991; and has been awarded several GSA contract vehicles.

ABOUT MARSHALL

Headquartered in Ashburn, VA, Marshall Communications Corporation is a small disadvantaged (SDB-certified), Veteran-Owned Small Business (VOSB), and was established in 1991.

MARSHALL has been providing high quality satellite communications and multimedia networking solutions including full turnkey systems engineering and integration using COTS to DOD and non-DOD Agencies for over 17 years. MARSHALL was awarded a Schedule 70 (Contract # GS-35F-0195S) by the GSA Federal Supply Service (FSS) in February 2006; and a Seaport-e (Contract # N00178-07-D-5143) in June 2007 and an Indefinite Delivery, Indefinite Quantity (IDIQ) contract by the U.S. Navy Department in September 2008. MARSHALL's team has over 100 years of satellite communications network operations, planning, and systems engineering experience - inclusive of Cisco Certified Engineers. The Company specializes in "Best of Breed" in standards-based, open architecture systems and delivering satellite-based IP network solutions that are cost effective and promote quality of service and reliability.
