U.S. NAVY, SPACE AND NAVAL WARFARE SYSTEMS CENTER, ATLANTIC AWARDS MARSHALL COMMUNICATIONS CORPORATION FIELD SERVICES CONTRACT

ASHBURN, VA. – September 2009 – Marshall Communications Corporation (MARSHALL) announces that the U.S. Navy, SPAWAR has awarded MARSHALL a contract for the Logistics, Operations and Maintenance, and Help Desk support services for the Communications Division in support of Operations Iraqi Freedom (OIF) and Operations Enduring Freedom (OEF). MARSHALL will be supporting activities primarily OCONUS in the CENTCOM Theater and Headquarter offices Stateside, Iraq, Afghanistan, Kuwait, Qatar, DoD Teleport in Landshtuhl, Germany; SPAWARSYSCEN/EUCOM European facility in Stuttgart, Germany; and the SPAWARSYSCEN facility in Charleston, SC. The contract provides for the maintenance, technical and logistical support and training for the DVB-RCS/S2 standards-based network in use by CENTCOM for Global War on Terrorism (GWOT) requirements. The contract is for a base year and two (2) one-year option years.

“MARSHALL is pleased to support SPAWAR in its mission critical requirements, especially in the operations overseas using standards-based DVB-RCS/S2 technology. We stand ready to provide operational field support to the two-way satellite system and to help CENTCOM carry out its duties and responsibilities to deliver world class C4I communications systems,” commented Sonny Marshall, president and CEO.

ABOUT MARSHALL

Headquartered in Ashburn, VA, Marshall Communications Corporation is a small disadvantaged (SDB certified), Veteran-Owned Small Business (VOSB), and was established in 1991. MARSHALL has been providing high quality satellite communications and multimedia networking solutions including full turnkey systems engineering and integration using COTS to DOD and non-DOD Agencies for over 17 years. MARSHALL was awarded a Schedule 70 (Contract # GS-35F-0195S) by the GSA Federal Supply Service (FSS) in February 2006; and a Seaport-e (Contract # N00178-07-D-5143) by the U.S. Navy Department in June 2007. MARSHALL’s team has over 100 years of satellite communications network operations, planning, and systems engineering experience - inclusive of Cisco Certified Engineers. The Company specializes in “Best of Breed” in standards-based, open architecture systems and delivering satellite-based IP network solutions that are cost effective and promote quality of service and reliability.
