

FOR IMMEDIATE RELEASE

**U.S. NAVY, SPACE AND NAVAL WARFARE SYSTEMS COMMAND (SPAWAR) AWARDS
MARSHALL COMMUNICATIONS CORPORATION CONTRACT USING
DIGITAL VIDEO BROADCASTING-RETURN CHANNEL SATELLITE (DVB-RCS/S2)**

ASHBURN, VA. – October 2008 – Marshall Communications Corporation (MARSHALL) announces that the U.S. Navy, SPAWAR has awarded MARSHALL an Indefinite Delivery, Indefinite Quantity (IDIQ) contract for the procurement of Digital Video Broadcasting, Return Channel via Satellite (DVB-RCS/S2) Production Subscriber Suite (PSS) bundles, User Subscriber Suite (USS) bundles, and associated spare parts and repair/maintenance labor. The contract is for a base year and two (2) one-year option years.

The DVB-RCS/S2 standard-based technology provides SPAWAR with continuous, high-speed, asymmetrical two-way Internet Protocol (IP) traffic flow of high volume applications. The procurement of the PSS and USS suites are interoperable with existing Global Broadcast System (GBS) systems, fielded assets, and MARSHALL's previously manufactured PSS suites. MARSHALL is continuing to provide these same suites to satisfy the USCENTCOM's mission critical communications needs for the Unmanned Aerial Vehicle (UAV) full motion video dissemination capabilities and DISN services to deployed forces using DVB-RCS and within the South West Asia Theater, and are still in operational use today.

ABOUT MARSHALL

Headquartered in Ashburn, VA, Marshall Communications Corporation is a small disadvantaged (SDB certified), Veteran-Owned Small Business (VOSB), and was established in 1991. MARSHALL has been providing high quality satellite communications and multimedia networking solutions including full turnkey systems engineering and integration using COTS to DOD and non-DOD Agencies for over 17 years. MARSHALL was awarded a Schedule 70 (Contract # GS-35F-0195S) by the GSA Federal Supply Service (FSS) in February 2006; and a Seaport-e (Contract # N00178-07-D-5143) by the U.S. Navy Department in June 2007. MARSHALL's team has over 100 years of satellite communications network operations, planning, and systems engineering experience - inclusive of Cisco Certified Engineers. The Company specializes in "Best of Breed" in standards-based, open architecture systems and delivering satellite-based IP network solutions that are cost effective and promote quality of service and reliability. MARSHALL can be viewed on the Internet at <http://www.marshallcomm.com>.
